

NEW

SMOKE - FREE DOORWAY POLICY – SEPTEMBER 1, 2011

The PEFAC Board of Directors has established a new smoke-free doorway policy effective September 1, 2011. No smoking will be permitted within 9 meters of our main entrance.

The PEFAC Board of Directors wishes to enable users and staff to enter and exit the facility without having to walk through second hand smoke. Minimize the amount of tobacco smoke that can drift into our building and eliminate the unsightly litter and tobacco box on the outside wall. Also to help keep tobacco use out of sight of children and young adults. Save money on cleaning and maintenance costs and most importantly reduce fire hazards.

In addition we will be posting “Smoke-Free Doorway” stickers on our front door as a reminder.
Thanking all in advance.

If you would like additional information or assistance on how to stop smoking or the benefits, please contact the Chronic Disease & Injury Prevention, Hastings and Prince Edward Health Unit
